Step 1 (homepage.php)

University of Dowell in Wonderland

© Designed by Lanfeng Shi (547644) 2020

Firstly, go to home page, there are basic visual. On the top right corner, student/staff should login to see the unit details and enrolled students.

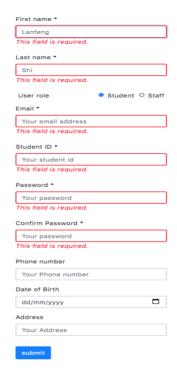

University of Dowell in Wonderland

DC account ID: 666888 Password: Shilf111!

Step 2(registration.php)

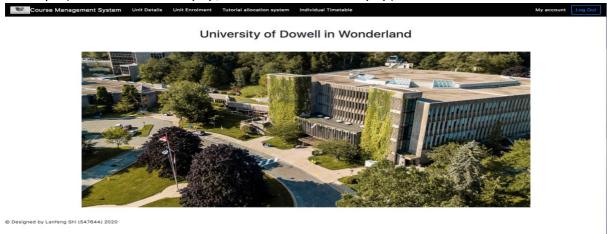

When a new user to register, different information need to provide, with necessity and different requirement, such as pass word requirement and password double check requirement.

After register, their personal information and status are record in database table "student"," staff1" with word "student", "staff" separately.

Student part

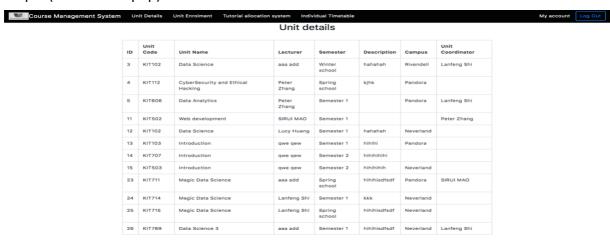

Step 1(UserAccount-staff.php/UserAccount-student.php)

If students log in, they can see the units detail, units enrolment, tutorial allocation and personal time table, and if they click my account, they can see their personal information and edit and go to their timetable.

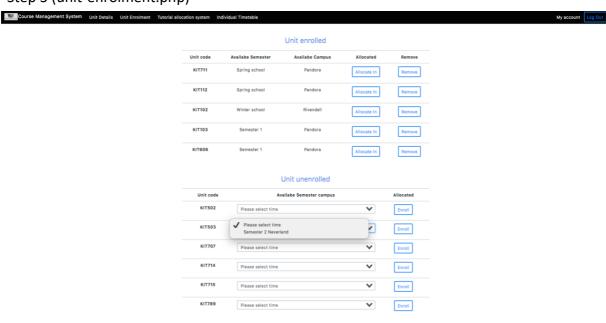

Step 2 (unit-details.php)

The units detail is offered for both student and staff.

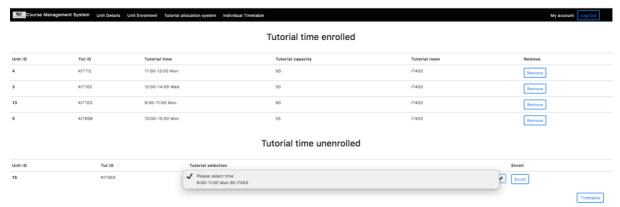

Step 3 (unit-enrolment.php)

Unit Courses selection

When student decide what units to enrol, they can choose available semester and campus and go to tutorial selection to choose tutor time.

Step 4 (tutorial-allocation-system.php)

Tutorial time will be select and enrol, then the personal time table are formed. If student don't satisfy their timetable they can changed the lecture time and tutorial time by click edit or swap. (individual-timetable.php)

Staff part (Enrolled student.php)

You have not been allocated the position, please contact the Degree Coordinator!

if staffs just register and login, they only can see the units detail and if they want to see the enrolled student, there is a reminder that they need to contact Degree Coordinator Or Unit Coordinator to get their position.

Tutor part (Enrolled student.php)

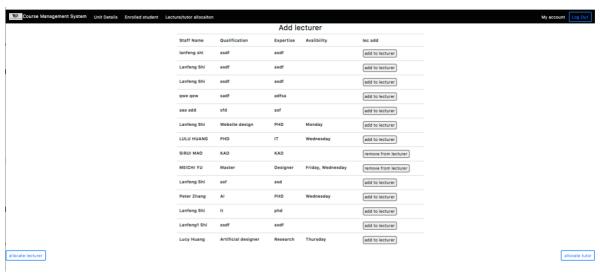

If a tutor login, they can see the unit detail and student enrol in the course they in charged. And edit their personal information by click my account.

Lecturer part (Enrolled student.php)

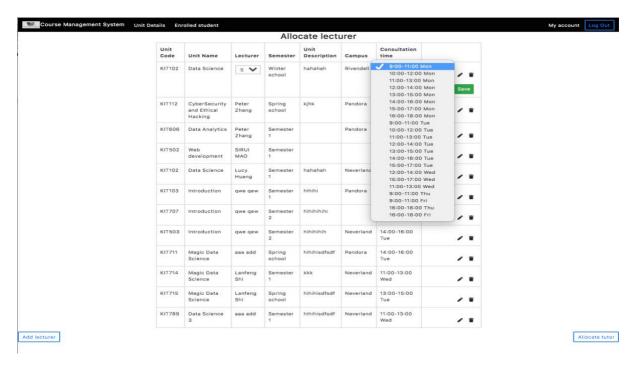

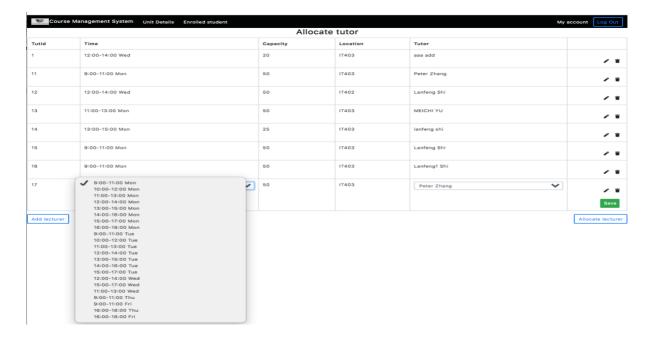

If a lecturer log in, they can see units detail the student enrol in the units they charged and edit their personal information by click my account.

UC part (Masterpage_uc.php/uc-allocatelec.php/uc_allocatetut.php)

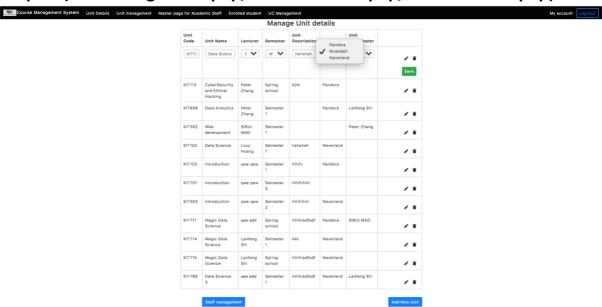

When a UC log in, they can allocate staff to the lecturer, and after add lecturer, UC can click allocate lecturer button on the bottom left to allocate lecturer into units and add consultation time for them by considering their availability.

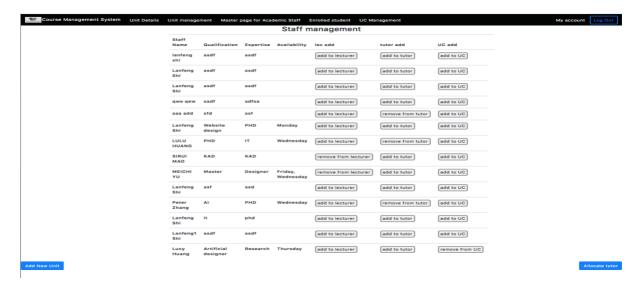

Additionally, UC also can allocate tutor, tutorial time, and location for each course.

DC part (UnitManagement.php/academic-staff.php/dc-allocatetut.php)

When DC login, they can see the unit detail, and unit management, master list for staff, the all enrolled student and the UC management page. In the unit management page, DC can choose lecturer, UC, semester and campus for each unit. And if they edit the unit name and description, the same unit code will have changed at the same time. DC also can add new unit by click the right corner button "add new unit" and allocate tutor to unit by click right bottom button.

when DC allocate the staff, they just click the button on the table. **But there is a reminder, that one person only can get one position, careful!** Also, DC can access UC management part.
